Thermal treatments 2009

The THERMAL WATER comes from the unspoiled basins of the Prealps, flowing through the subsoil where it heats to a temperature of 87°C, becoming enriched with mineral salts.

This water, unique in the world, is mainly used for the maturing, storage and regeneration of the "mature" thermal fango which possesses incomparable therapeutic properties. The SPA facilities are located within the hotel.

Our skilled personnel together with a qualified medical assistance of Dr. S. Morello, Specialist for rheumatology and cardiology, give their best attention to each of our Guests.

Our thermal department utilizes ripe Mud controlled by the University of Padova.

- **MUD and THERMAL BATHS** improve considerably:
 - rheumatic diseases: osteoarthritis, arthritis, rheumatism, myositis, neuralgia, neuritis, osteoporosis,...
 - post-therapeutical pathologies: consequences of fractures, lesions,...
 - skin and subcutaneous tissue problems (water retention).
- **MASSAGES** ideal to eliminate contractures, to tone up and reactivate the superficial circulation after the mud application treatment.
- **INHALATIONS and AEROSOL with THERMAL WATER:** suitable for the prevention and treatment of the respiratory organ problems together with ear, nose and throat diseases.

FLAT RATES INCLUDE:

- Accommodation and meals,
- Admittance medical examination (compulsory),
- Mud application with thermal shower and bath (without ozone)
- Therapeutic massage (25 minutes),
- Bathrobe hire.
